## PROFESSIONAL SUMMARY

Dedicated Full Stack Developer with expertise in frontend (React JS, Tailwind CSS) and backend (SpringBoot) development. Experienced in creating responsive and user-friendly web applications, optimizing performance, and enhancing user experience. Proficient in modern development tools, methodologies, and cloud services. Demonstrates excellent problem-solving skills, effective communication, and a proactive approach to continuous learning. Committed to delivering high-quality code and innovative solutions that align with business objectives.

## CORE SKILLS

### Frontend Development:

- **Technologies:** HTML5, Tailwind CSS, React JS, Figma
- **UI Frameworks:** Tailwind CSS, Bootstrap
- **Responsive Design:** Mobile-first approach, Cross-browser compatibility

### Backend Development:

- **Technologies:** SpringBoot
- **API Development:** RESTful APIs, Authentication & Authorization (JWT)
- **Database Management:** MySQL
- **API Integration:** Axios

### DevOps & Tools:

- **Version Control:** Git
- **Cloud Services:** AWS (EC2, S3), Azure (Basic Knowledge)
- **Deployment:** Docker, CI/CD (Basic Knowledge)

## KEY PROJECTS

### Daraz Clone App

- **Tech Stack:** SpringBoot, React JS, Tailwind CSS
- **Description:** A clone of daraz ecommerce Site. The frontend has been cloned but the backend is not cloned. I made a restful API using SpringBoot for adding products and users. The app is still under development.
- **Link:** [Daraz Clone](#)

### Car Rental System (Project Manager)

- **Tech Stack:** Ruby and rails, React JS. Bootstrap
- **PM management tool:**
- **Description:** A full-stack application that helps people rent cars online as well become a renter online using our system. I showcased my ability to manage and lead a team of 7 members. As well as I learned a lot about leadership and teamwork during the project.
- **Link:** [Car Rental System](#)

### Todo App

- **Tech Stack:** SpringBoot, React JS, Bootstrap
- **Description:** A full-stack application that helps people list their tasks. People can delete, edit and add tasks. I showed my knowledge on SpringBoot, React JS and bootstrap in the project.
- **Link:** [Todo App](#)

### Weather App

- **Tech Stack:** HTML5, CSS3, JavaScript, PHP, MySQL
- **Description:** A simple yet powerful weather application that displays real-time weather data. Emphasized on responsive design principles and backend data fetching through PHP and MySQL integration.
- **Link:** [Weather App](#)

## EDUCATION

**Herald College Kathmandu**

BSc (Hons) in Computer Science

**Feb 2023 – Present**

GPA: Running

**Reliance INT'L College**

+2 Science (Grade 11 & 12)

**Aug 2019 – May 2021**

GPA: 3.49

**Shree Chandikaswory English Secondary School**

Secondary Education Examination (SEE)

**Apr 2005 – Mar 2019**

GPA: 3.20

## CERTIFICATIONS

**Responsive Web Design Certification**

freeCodeCamp

## ADDITIONAL SKILLS

- Strong problem-solving skills and proactive approach to challenges
- Excellent communication skills, ideal for collaborating with cross-functional teams
- Familiarity with SCRUM methodology in project management
- Continuous learner, committed to staying up to date with industry trends and best practices
- Basic knowledge of UI/UX design tools (Figma)
